CHAPLAINCY & WELLBEING

Chaplaincy Services promote student wellbeing, engaging young people in activities that are preventative and which support early intervention and referral of mental health issues.

Principals ARE SAYING...

The benefits of the program are clear and include increased attendance at school by identified students, social and emotional support, increased access to social skills programs and families feeling supported in time of crisis such as suicide, death and family separations.

Primary School Principal

A lot of student problems never eventuate because the Pastoral Care Worker has provided support and encouragement early on. The students always walk away from their time with him with more bounce in their step....it is hard to imagine our school without thinking of our Worker.

Schools Ministry Group (SMG) coordinate and facilitate Chaplaincy Services in government schools across South Australia.

- SMG partners with schools, local churches, state and federal governments to deliver Chaplaincy Services through the engagement of a Pastoral Care Worker.
- SMG works collaboratively with these partners in the recruitment, supervision and ongoing professional development of PCW’s to ensure the placement of high quality workers who are well equipped to support young people and strengthen communities.
- Pastoral Care Workers are funded from two main sources - the National School Chaplaincy Program and the local church communities.
- The Chaplaincy Service provided through your PCW is a voluntary program offered to school communities.
