Cans / Bottles

Friday 9th June
STUDENT FREE DAY

Wednesday 14th June
Music is Fun
Year 6/7 Cyber Safety

Principal News

Welcome to Week 4

Welcome back Miss Michalanney and Mr Stevens—we hope Leah had a wonderful 40th birthday and Mr Stevens spoilt you.

Student Behaviour—We need to continue to have these conversations and touch base with our kids. We need to make positive choices and take responsibility for our actions. We need to continue to support one another. Like academic learning—social skills and decision making is a learning process.

LOST AND FOUND: Bracelet found at Disco last week.

Have a great week! Kind Regards, Kellie Zadow

A Parent's Guide to ENCOURAGING A GROWTH MINDSET

What is a growth mindset?

Growth mindset is a concept developed by Carol Dweck, a Professor of Psychology at Stanford University. It is the belief that a person's abilities and intelligence can be developed through practice, hard work, dedication, and motivation.

What is a fixed mindset?

A fixed mindset is the notion that intelligence and talent alone will lead to success. People with a fixed mindset believe that these things are "fixed" and cannot be developed or improved upon. They believe that you are either born with it or not, and nothing can change that.

Why is having a growth mindset important?

Research has shown that children who have a fixed mindset are more likely to:

- Fear failure
- Give up on tasks they feel are too difficult
- Ignore feedback
- Avoid challenges
- Feel threatened by the success of others

Children who have a growth mindset are more likely to:

- Learn from their mistakes
- Be motivated to succeed
- Put forth more effort
- Take challenges head on
- Take risks
- Seek feedback
- Learn more
- Learn faster

Schoolhouse Live

Japanese—Outdoor Classroom
