## Principal News

### Welcome to Week 8

Another busy week ahead and lots of information for families in your newsletter packs—please take the time to read as this is support learning and development for all of us.

**CAMP— We are asking families to bring in a \$50 deposit by this Friday 23rd June at the very latest to** cover the ferry fare—this is a non-refundable deposit. There are still 8 families to make the deposit. I need to finalise bookings before Week 10—please let us know what you're intending to do otherwise there are 2 options (**no camp this year / or students don't attend**). We are at the stage where we will lose our temporary bookings and we will miss out.

Families can also make weekly or fortnightly payments or part payments—some families have taken this option since the start of this term.

### Cyber Safety—What is ThinkUknow?

ThinkUknow is a partnership between the Australian Federal Police, Commonwealth Bank, Microsoft and Datacom and delivered in partnership with all State and Territory police and Neighbourhood Watch Australasia. The cyber safety presentations sensitively cover a range of topics including sexting, cyber bullying, online child exploitation, online privacy, and importantly what to do when something goes wrong. Presentations are aimed at parents, carers and teachers and young people from grades 3-12.

Please refer to the CYBER SAFETY Top 10 tips flyer to make sure your family is keeping safe online. Some of the facts and statistics are amazing and SCARY—We as adults are way behind and need to catch up, keep up with the online world. How much do you really know what is going on????

Have a great week!

Kind Regards,  
Kellie Zadow

## PERSONAL AND SOCIAL CAPABILITIES—Information Flyer

Personal and social capability focuses on a range of skills important for children and young people, both in and out of school.

A family information brochure is included with your newsletter and more information can be found on the DECD and ACARA website.

This general capability has 4 main parts:

- self-awareness – knowing their own emotional states, needs and perspectives
- self-management – learning when and how to use strategies to manage themselves
- social awareness – recognising others' feelings and knowing how and when to help them, social management – interacting effectively and respectfully with adults and peers.

**This is certainly a focus at MPS and has supported the learning staff have been doing at the Wellbeing Classroom about helping kids to self-regulate by emotional coaching and talking about their feelings. The Kimochis are a tool to help students and families. If you would like some more information to support you at home come in and see us.**

### HELPING YOUR CHILD

You can help your child develop personal and social capability by:

- asking your child to take responsibility for organising their things
- involving your child in family decisions according to their age and ability
- talking about the different rules that apply at home, school and community spaces
- showing kindness and respect in your own relationships with adults and children
