

## Healthy Food Policy

### Rationale

Staff, students and families at Morgan Primary School aim to promote nutritional eating habits in a safe, supportive environment for all children attending our school. We believe that childhood is an important time for establishing lifelong, healthy eating habits and can benefit the children in many ways:

- ◆ Eating a healthy diet is important for **children's growth, development and learning**
- ◆ Short term: maximises growth, development and activity whilst minimising illness
- ◆ Long term: minimises the risk of diet related diseases later in life e.g. heart disease, strokes, some cancers and diabetes
- ◆ Advice from speech pathologists and dentists indicates that children should be eating crunchy foods
- ◆ Advice from professionals indicates diet has an effect on behaviour, learning and brain development

### Curriculum

Our school's food and nutrition curriculum:

- ◆ Includes activities that provide children with knowledge, attitudes and skills to make positive healthy food choices and learn about the variety of foods available for good health
- ◆ Includes opportunities for children to develop practical food skills like preparing and cooking healthy food
- ◆ Integrates nutrition across the curriculum where possible
- ◆ Works with other agencies to support healthy eating and lifestyle options
- ◆ Is part of the Australian Curriculum: Health

### The Learning Environment

Children at our school:

- ◆ Have fresh, clean filtered tap water available at all times and are encouraged to drink water regularly through the day
- ◆ Are encouraged to bring their own named drink bottle
- ◆ Eat in a positive, appropriate, social environment with staff who model healthy eating behaviours

Our school:

- ◆ Teaches the importance of healthy meals and snacks as part of the curriculum
- ◆ Students are supervised during snack and meal times at all times by staff
- ◆ We will display nutrition information and promotional materials about healthy eating, and provide information updates in newsletters
- ◆ Our school will ensure a healthy food supply for school activities, celebrations and events, strictly limiting availability of high fat, high sugar, or processed foods like chips, pastries, cakes, lollies, crisps and soft drinks to no more than twice a term, in accordance with the Healthy Eating Guidelines
- ◆ Provides opportunities for students to grow their own produce in the garden and learn about sustainability
- ◆ Provides opportunities for students to have breakfast / lunch at school if the need arises
- ◆ Is a breastfeeding friendly site

## FAMILIES: Food Supply

- ◆ We recommend that families follow the 'Australian Guide to Healthy Eating' guidelines
- ◆ We encourage families to provide 'Litter Free Food.'
- ◆ Our school has the following guidelines for families for food brought from home:

<p><b><u>Fruit Time / Grazing Food</u></b></p> <p>Parents and carers are asked to supply fruit and vegetables for fruit time to:</p> <ul style="list-style-type: none"> <li>◆ Provide children with important minerals and vitamins</li> <li>◆ Encourage a taste for healthy foods</li> <li>◆ Encourage chewing which promotes oral muscle development and hygiene</li> </ul>	<p><b><u>Recess</u></b></p> <ul style="list-style-type: none"> <li>◆ Parents to supply healthy options using the healthy eating guideline</li> </ul>
<p><b><u>Lunch</u></b></p> <ul style="list-style-type: none"> <li>◆ Parents to supply healthy options using the healthy eating guideline</li> </ul>	<p><b><u>Food safety Our school:</u></b></p> <ul style="list-style-type: none"> <li>◆ Promotes and teaches food safety to children during food learning/ cooking activities</li> <li>◆ Provides adequate hand washing facilities for everyone</li> <li>◆ Promotes and encourages correct hand washing procedures with children</li> <li>◆ All food is stored hygienically in the fridge provided on the site</li> </ul>

We understand that at times families may run out of fruit / vegetables and often there are donations of fruit given to the school. A healthy sandwich (multigrain or wholemeal bread) with savoury filling or plain unsalted crackers (e.g. Vita-wheat) are most acceptable.

**Foods unsuitable include:** packaged foods, cakes, sweets and chips.

Cordials and sweetened fruit juices are not to be sent.

Take away/ fried fast food is not to be sent to be reheated.

### **Food-related health support planning**

Our school:

Liaises with families whose children are on special diets or have specific food allergies to ensure that the site has a good understanding of that child's needs.

---

# Australian Guide to Healthy Eating

Enjoy a wide variety of nutritious foods from these five food groups every day.

Drink plenty of water.

Grain (cereal) foods, mostly wholegrain and/or high cereal fibre varieties

Vegetables and legumes/beans

Lean meats and poultry, fish, eggs, tofu, nuts and seeds and legumes/beans

Milk, yoghurt, cheese and/or alternatives, mostly reduced fat

Fruit

Use small amounts

Only sometimes and in small amounts
