

# 2024 School Improvement Plan Summary

School name here

Goals	Targets	Challenge of Practice	Success Criteria
To improve student writing from R-6	2022: 100% of Year 3 students met the SEA target.	If we continue to embed the teaching and learning cycle with a focus on vocabulary and sentence structure we will improve writing from R-6.	Year 2-6 Students will demonstrate and use taught vocabulary and sentence types in a range of genres.
	2023: 60% (number of students) of year 3 will move to a 3 or 4 for vocab and sentence structure on Naplan Marking Rubric. 80% of Year 5 will move to a 3 or 4 for vocab and sentence structure on Naplan Marking Rubric.		
	2024: 100% of year 3 students will achieve A or B grade range on the Brightpath Scale in narrative.		
To increase student growth to higher achievement in Numeracy	2022: 100% of Year 4 students achieved the SEA in PAT Maths. 3 out of 4 students were retained in upper growth and 1 new student into upper growth.	If we design learning to include problem solving for challenge and stretch whilst continuing to embed our whole school approach to teach number sequentially we will increase the number of students achieving higher growth.	Year 2-6 students will be able to apply efficient strategies to solve numeracy problems
	2023: To increase the number of students in HB in Year 5 Naplan.		
	2024: To increase number of students achieving higher growth in Year 6 PAT M.
